**Mr. DEALER:**

**Recommend NITRAGIN inoculation for all Legume seeds planted.**

Many farmers believe once a field has been planted with inoculated Legume seeds that any future similar Legumes planted on the same field need not be inoculated. Field tests have shown that better crops are harvested when Legume seeds are inoculated even when planted on fields where inoculated seeds of the same Legume crops had grown the previous year. Scientists have proved that due to unfavorable soil conditions many Legume bacteria do not survive from year to year, therefore are not present in the soil in sufficient numbers to give the best results.

**Encourage the farmer to inoculate all Legume seeds whether planted on old or new fields. It costs but a few cents per acre.**

## DEALER EXCHANGE POLICY

You purchase NITRAGIN outright from your jobber at regular terms. NITRAGIN is not consigned.

As a service because of the expiration date on all NITRAGIN labels, all NITRAGIN left over should be returned immediately at end of season to your jobber for credit.

## ORDER NITRAGIN IN CARTON LOTS

For convenience in handling and shipping, please order NITRAGIN in full carton lots, if possible.

See price list other side for number of units packed in each carton.

Reduce your left-over stock at end of year by ordering smaller lots and ordering more often during season.
